This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at `http://books.google.com/`

Catalogue of the Books in the Celtic Department

Aberdeen
Printed at the University Press
1897

NOTE.

In 1896, the Rev. Donald Tolmie Masson, M.A., M.D., Edinburgh, offered his collection of Celtic books for purchase at a reduced rate by the University of Aberdeen, his Alma Mater. The Library Committee having no funds available for the purpose, the Aberdeen Highland Association generously agreed to secure the collection for the University, subject to the following conditions, to become binding on completion of the purchase by the Association:—

(1) That the University Library Committee undertake that the Celtic Library will be carefully housed in the Library of the University, free of any charge upon the Highland Association.
(2) That such a sum as may be available be expended by the said Library Committee in adding to and maintaining the Celtic Library from time to time.
(3) That the volumes shall be lent out to members of the Association upon the written authority of the Secretary for the time, free of charge, subject to the general regulations of the Library; but that the Association shall be responsible for such books while lent to borrowing members.
(4) That a Catalogue of the Celtic books shall be prepared and printed by the University Library Committee, and a reasonable number supplied to the Association free of cost.
(5) Generally such other bye-laws as may be hereafter mutually agreed on for maintaining and increasing the Celtic Library, and for making it available to students of Celtic Literature, particularly and primarily to members of the Association.

With Dr. Masson's volumes have been combined those on cognate subjects previously in the University Library, and the list now issued includes the titles of all the books in the Celtic Department. The Catalogue has had the benefit of revision in proof by Dr. Masson, by the Rev. Duncan Macgregor, Inverallochy, and by Mr. William Dey, LL.D., Aberdeen.

The sum that can be set aside from the University Library funds for the purpose of adding to the Celtic Department is very small, and the Library Committee confidently appeals to former students and to all friends of the University to increase its usefulness by the donation of books or pamphlets not entered in this Catalogue. All such gifts, however small, will be gratefully received and acknowledged.
